

# ALL PURPOSE NEUTRAL CLEANER

## DESCRIPTION

This powerful cleaner is a combination of high grade detergents, emulsifiers and wetting agents. This product is recommended for general everyday cleaning. No rinsing necessary, but is recommended where dirt load is extremely heavy. Can be used in hard or soft water.

## DIRECTIONS

This efficient general purpose cleaner, used in a daily maintenance program in schools, institutions, office buildings, etc., provides easy and economical care for large areas of flooring in a minimum of time. Use a damp mop or use it in automatic floor scrubbing machines. It is effective in removal of moderate or heavy soil from floors, as well as from almost any hard surface which is not harmed by water.

Use of 1 - 2 ounces per gallon of water is sufficient for general cleaning purposes. Apply use solution with a mop, allow product to work for a few minutes to loosen soil, then pick up with clean mop or vacuum.
