

DEFOAM CONCENTRATE

DESCRIPTION

Can be used in steam cleaners, extractors, automatic scrubbers, and wet vacuum pick-ups to eliminate suds and foam.

DIRECTIONS

SHAKE WELL BEFORE USE

WEPAK DEFOAM should be added to the recovery tank and the inside of the suction end of the hose, before you begin to use any equipment.

Use 1 ounce of product for every 5 gallons of water. Wepak Defoam is a highly concentrated product.

Previously cleaned carpet, will generally have a high degree of detergent build-up. For best results, before cleaning, spray the carpet lightly with **WEPAK DEFOAM** in either a hand trigger sprayer or tank sprayer.
