

pH NEUTRALIZER & CONDITIONER CONCENTRATE

DESCRIPTION

Wepak **pH Neutralizer and Conditioner** is a synthetic floor neutralizer and conditioner designed for use in a necessary floor care and cleaning regimen.

pH Neutralizer and Conditioner is the ideal cleaner for the majority of floor surfaces, and may be used in automatic scrubbers.

The additives in **pH Neutralizer and Conditioner** bonds with residual stripping compounds left behind and prevents them from destroying a floor's new finish. This neutralization process enables the removal of alkaline residue and contaminants for a richer, deeper shine.

DIRECTIONS

1. Strip and rinse floor following stripping instructions and recommended dilutions and directions.
2. Dilute **pH Neutralizer and Conditioner** (recommended 2 to 4 ounces per gallon of water) and damp mop entire floor.
3. Rinse floor with clear water.
4. Allow floor to dry completely. Once floor is completely dry, apply sealer and or finish as recommended by instructions.

APPLICATIONS

Product for Use In:

- >Schools
- >Offices
- >Nursing Homes

SPECIFICATIONS

Color	Colorless
Fragrance	None
pH Range.....	1.0 - 2.0
Dilution.....	2 - 4 oz. / gal.
Density.....	8.59
